Health Care for America Now is a national grassroots campaign organizing millions of Americans to win a guarantee of quality, affordable health care for all.

We are grounded in organizations that can mobilize people at work, at home, in their neighborhoods, and online. (*see Steering Committee Members below) We're bringing together community organizers, nurses, doctors, small business owners, faith-based groups, organizations of people of color, and seniors who believe it's time we had an American solution that provides quality, affordable health care for everyone.

We're offering a bold new solution that gives you real choice and a guarantee of quality coverage you can afford: keep your current private insurance plan, pick a new private insurance plan, or join a public health insurance plan.

We're also calling for regulation on health insurance companies. We need to set and enforce rules that quash health insurance companies' greed once and for all.

There is a huge divide between our plan and the insurance companies' plan for healthcare reform. We want to make sure you have the quality coverage you need at the price you can afford. They want to leave you alone to fend for yourself in the unregulated, bureaucratic health insurance market.

Our plan is affordable for people and business. Their plan is profitable for them. With no regulation, health insurance companies can and will charge whatever they want, set high deductibles, and continue to drop coverage when you get sick.

Now is the time to pick a side. Which side are you on?
